Re: Mobile Imaging and Scanning Solutions, Inc.

Dear Sir or Madam:

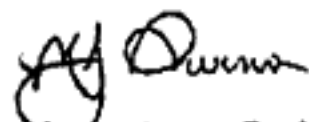

I strongly recommend to you the services of Mobile Imaging and Scanning Solutions.

I purchased a scanning system from this company approximately six months ago. I was pleased with the personal service we received during the initial training/setup process, but quite frankly, expected that. Since that time, Tony and Ed have far exceeded my expectations. They have promptly returned phone calls, initiated additional phone calls to see how things were going with the system, and sent a technician out when fine tuning needed to be done to our system.

In addition to the fine customer service they have provided, I have also been extremely pleased with the system itself. It does everything that I was told that it would do for my company.

If I can answer any questions regarding my experience with Mobile Imaging and Scanning Solutions, Inc., please do not hesitate to call.

Sincerely,

Mary Jane Gwinn, President
