General Manager

Subject: Letter of Recommendation

Dear Ed,

I am pleased to write this letter of recommendation for MIS, Inc.

On two different occasions we needed a large Request For Quotation document to be scanned and formatted to fit our particular software needs. In order to meet our response required date for this proposal, we needed the scanning and formatting done under a very tight deadline. MIS, Inc. performed under pressure. With the documents scanned and formatted, our response time to the customer was on schedule. Thank you!!!

Anytime in the future when we need a scanning job done, hopefully with a little more advance notice, we will call you.

Sincerely,
KVAERNER PULPING INC.
