To Whom It May Concern

Our company has worked with Mobil Imaging on a recent project. At first our physicians were fairly hesitant, it is a big step to go from paper to a CD-ROM with immediate access. This transition was made easier with the assistance of the staff of Mobil Imaging.

Mobil Imaging had our information to us on time and if anything was needed in the interim, they were always ready and willing to do what they could to help. I highly recommend the services of this fine company.

If you have any further questions, please do not hesitate to contact me at (919) 781-9754.

Sincerely,

A handwritten signature in cursive script that reads "Wendy A. Formanek".
