To Whom It May Concern:

It is with pleasure that I write this letter of recommendation for *MIS* Mobile Imaging & Scanning Solutions Inc. They have recently completed a project for the Mecklenburg County Bar office entailing the scanning of mailing lists and the creation of a database to generate labels and envelopes for use by the Continuing Legal Education program to market upcoming seminars to attorneys in and around Mecklenburg County.

The manual inputting of the mailing lists, containing over 2400 attorney names, would have entailed numerous hours of staff time dedicated only to the database project. *MIS* was able to relieve the Bar of this burden and turnaround the project in a handful of days with no loss of staff time. Training time was minimal and the first mailing was completed successfully within a week of contacting *MIS*

The quality of the product and ease of use is exceptional. When in the future the Mecklenburg County Bar expands the database, I am confident that *MIS* will be called upon to update the project.

Sincerely yours,

A handwritten signature in cursive script that reads 'Mary H. Howerton'.
