---

February, 2007

Mobile Imaging and Scanning Solutions, Inc. has provided their services to the Diocese of Savannah's Tribunal Office for the past six years. Their expertise in the data and imaging field has been overwhelmingly helpful to our office by allowing our Tribunal case files to be digitally scanned, stored and archived on microfilm, which is done on an annual basis.

The Diocesan Tribunal is very pleased to have a professional, yet casual, relationship with Mobile Imaging and we've been able to depend on them whenever we've had questions, or required assistance of any kind.

Sincerely,

Reverend Jeremiah J. McCarthy  
Judicial Vicar
