To Whom It May Concern:

We have been working with Mobile Imaging and Scanning for ten (10) years. These projects have been centered on insurance claims that have included water damaged paper documents that required conversion of paper records to a digital format. Additionally they worked on a major project converting legal documentation that included bates branding on all of the documentation. The end users have included Electrical South who is a Department of Defense contractor and Nationwide Insurance.

Their professionalism and expert handling of these projects have proven them invaluable to our company's success. If you have any questions please do not hesitate to contact me at (704)-847-5172.

As always, we appreciate the opportunity to be of service.

Sincerely,

**Wayne B. Petrea
President**
