To Whom It May Concern:

Waterfront Group is delighted to recommend the services of Mobile Imaging and Scanning Solutions.

We use the services to retain all of our accounting data. With just the click of a button, we are simply able to retrieve reports and data stored from a couple of years back. The software is easy to use and follow. This allows our facility to warehouse the original documents and keep extra space for other things. Our documents are scanned promptly and accurately.

Our company has utilized the services of Mobile Imaging and Scanning Solutions for two years and the service and support has been stellar.

Sincerely,

Shannon Ferrell
